

# R-FIT

## Gateway R-Fit Can Liners

Gateway R-Fit can liners focus on the EPA's most preferable way of being green:  
**SOURCE REDUCTION.**

R-Fit liners are designed around today's trash can liner industry. R-Fit offers the "right fit" for the trash cans in your facility. R-Fit liners utilize Gateway's High Performance R-Spec formula, which increases performance, helps standardize your current program, and maximizes the reduction of plastic going to the landfill. Gateway's goal is to provide you with the thinnest can liner that works 100% of the time.

### Features:

**Better Performance**

**Reduced Landfill Waste**

**Standardization**

**Industry Specific Testing**

**Fits Modern Can**

**Standard Competitive**

**R-Fit**

# Gateway Liner Selection Guide
